

## *Travel kit*

Work in **international groups (4-5 students per group)**.

**Task: Design a travel kit for young people.**

That can be

- a hi-tech gadget (mobile+diary+camera+mp3 player+gps+travel guide+update on latest events and locations+twitter+flickr+booking tickets and rooms+translator+I don't know what else)
- or it can be multifunction bags or a set of bags (lightweight, waterproof, with protection for technical gadgets, clever storage room for sandwiches, with protection against theft, fashionable, etc.)
- or a set of tools, toiletries and other stuff (smell-free socks, mouthwash, chargers, blister band-aids, painkillers and whatever else people might need) so that packing is done within minutes.

The kit is to make travelling easier and hassle-free, particularly for young people. It's to be practical and functional.

Decide what kind of travel kit you'd like to make. Decide about its **features**. Decide about its **design** (shapes, colours, etc) and think of a good **name and slogan** for your product.

Prepare a **poster** that describes your travel kit and its features. Draw or make a model of a **prototype**.

*Competition*

Look at all the posters and then fill in this sheet. Note down – for each category separately – which group you think is the best.

- ✓ **Most useful travel kit: group nr:....**
- ✓ **Best design: group nr:....**
- ✓ **Best name and slogan: group nr:....**
- ✓ **Best poster: group nr:....**
